caresystems

Less time on admin. More time for care.

Australia's most trusted aged care software & support

Running an aged care service is complex. Care Systems removes the day to day administrative stresses by providing a seamlessly integrated platform that manages clients, staff, finances, and compliance.

Providers across Australia trust Care Systems to keep their operations running smoothly and their clients cared for.

Confident Care Delivery

Care starts with care recipients, and Care Systems makes managing their journey simple.

- Manage enquiries, contracts, subsidies, and billing in one place
- Simplified enquiry management and client onboarding
- Smarter rostering with leave management
- Built-in compliance reporting including QFR, Accommodation Balance Report and Care Minutes tracking

Outcome: Care recipients and families feel supported as administrators spend less time on admin and more time on care.

Empowered Workforce

Care Systems gives your team the tools they need to succeed, while making workforce management simpler.

- Master and working roster management
- Handle last-minute changes with SMS notifications
- Award interpretation for accurate payroll
- Staff self-service portal for rosters, leave, and availability
- Integrated payroll with STP2, tax, super, and leave calculations

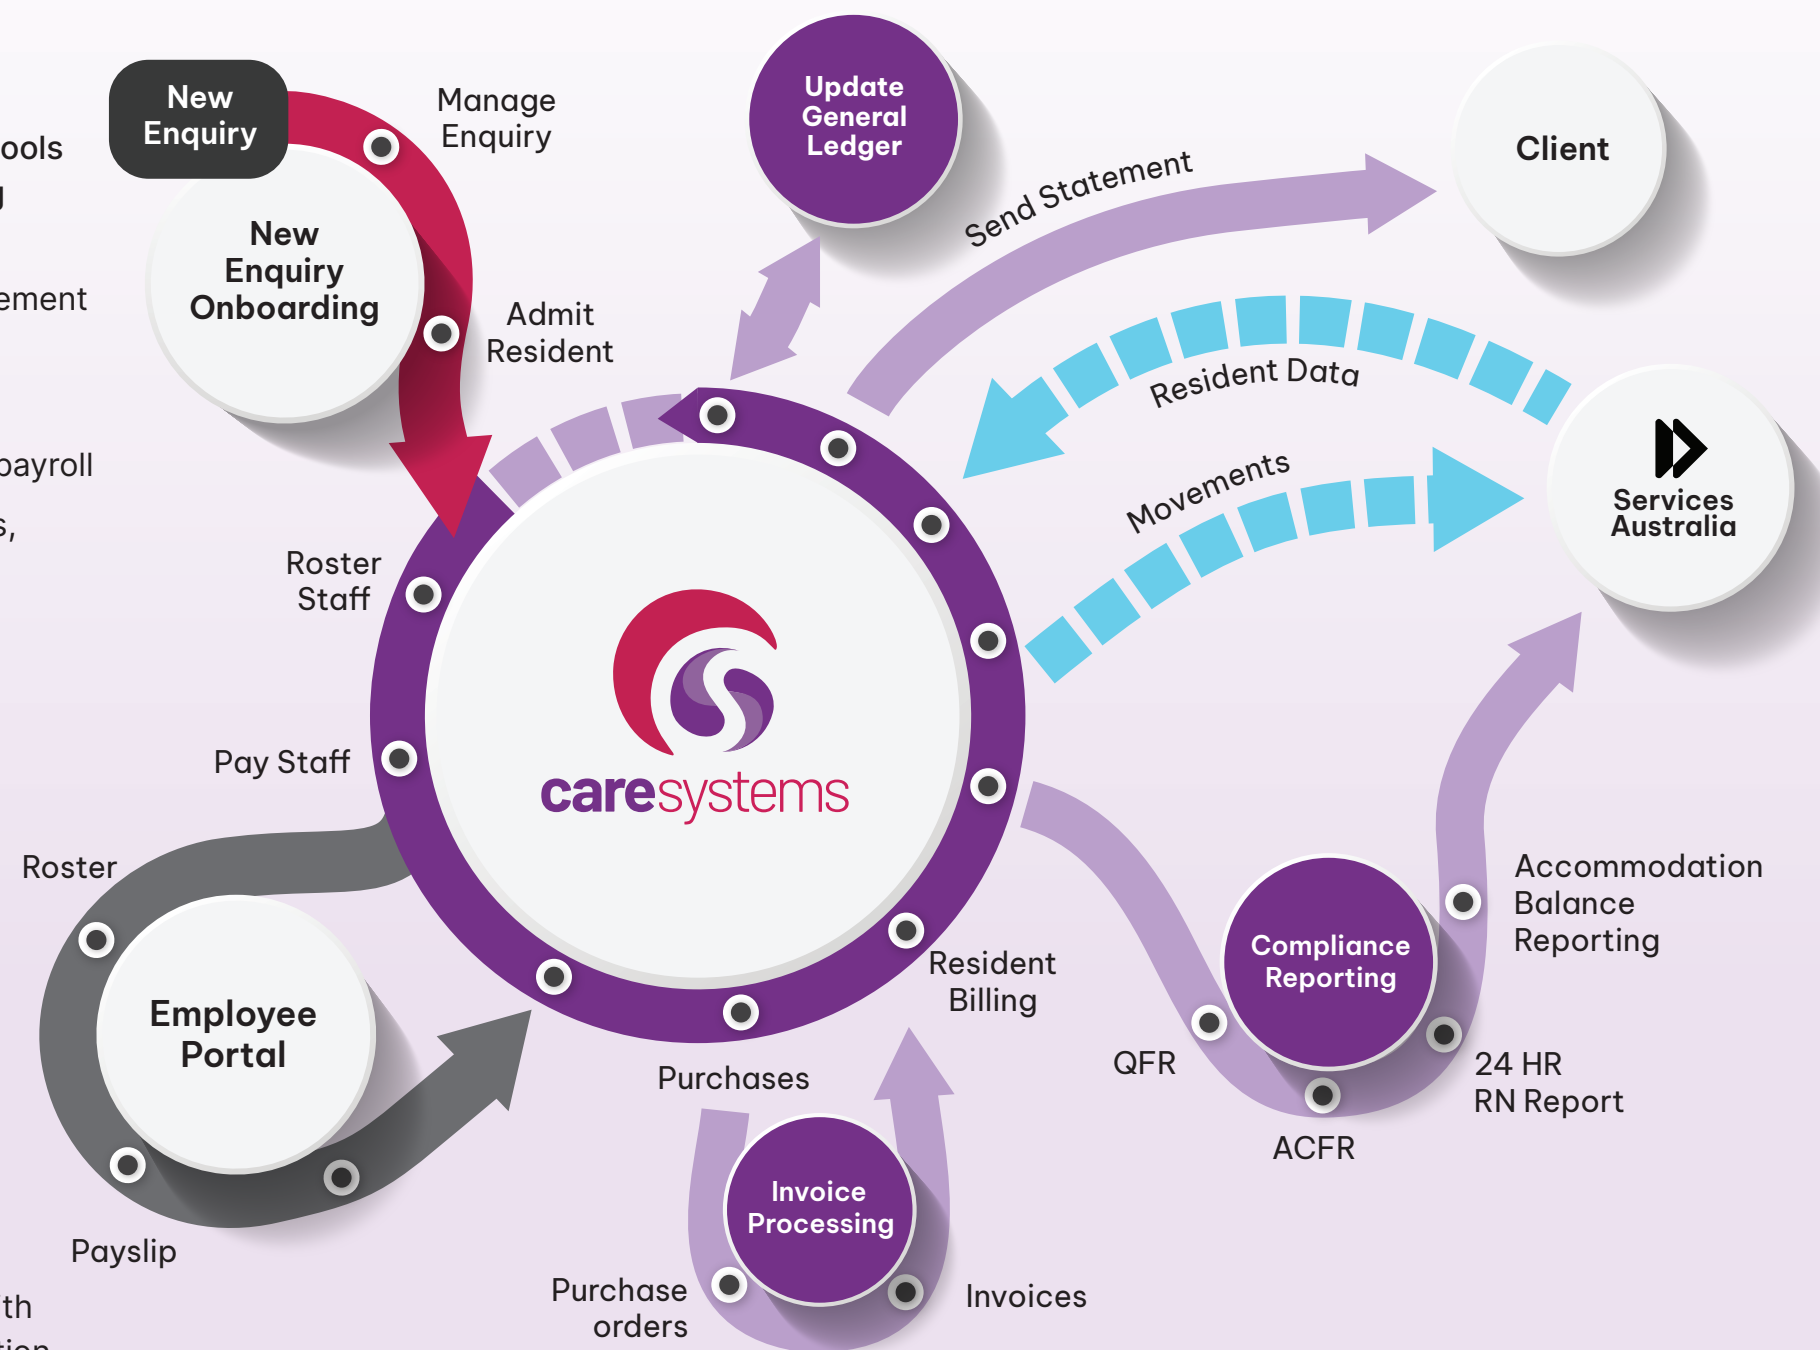

Outcome: Payroll is accurate, and managers gain back valuable hours every week.

Strong Financial Control

Financial sustainability is critical to care. Care Systems gives leadership confidence with accurate, real-time insights.

- General ledger and dashboards with Excel export and Power BI integration
- Automated accounts payable with electronic transfers and BAS generation
- Subsidy management and payment reconciliation
- Simplified billing

Outcome: Finance teams save time, executives have clarity, and compliance is always covered.

"We reduced reconciliation time from days to hours and finally have visibility across all client billing."
